

## Participants wanted for an fMRI study

We are looking for volunteers to take part in a visual perception study using functional magnetic resonance imaging (fMRI) and eye tracking.

### You may be eligible to participate if you:

- are 18–40 years old
- have normal or corrected-to-normal vision (contact lenses or glasses)
- have no history of neurological or psychiatric disorders
- do **not** have a pacemaker, insulin pump, or other electronic medical device
- do **not** have ferromagnetic retainers or other MRI-incompatible implants

### What does participation involve?

The study consists of 4 fMRI sessions, including eye-tracking recordings. Each session lasts approximately 2–2.5 hours.

### Compensation

Participants will receive €20 per hour, with a total compensation of approximately €160–€200 for completing all sessions.
